

PROFESSIONAL SERVICES CAPABILITY STATEMENT

COMPANY OVERVIEW

Delta Energy Services, LLC was founded in 1988 with a vision to support Nuclear Energy with only the best, vetted technical personnel.

In addition to our unwavering support of Nuclear Energy, Delta now supports multiple industries. Delta was selected as a Top Ten Biomass Service Provider for 2022.

TECHNICAL SERVICES

Delta supports industry via hand-picked technical talent, focused on the client's needs.

We grew up on Capital Projects, but we also support facility Operations and Maintenance in select industries. We'll work with you to understand your issue, and then connect you with the right SME, or assemble a right-sized team to address your performance or reliability issue.

"Don't forget to ask us how our Project Managers pay for themselves!" Charles Boyce, CEO

SUPPORT OFFERINGS

OWNERS REPRESENTATIVES

Project Managers, Construction Managers, Project Controls, seconded to you.

INSERT TEAMS

We'll provide a select team of project support personnel to work together to execute your project or resolve your performance issue.

PROJECT DEVELOPMENT

Allow us to use our industry connections with technology providers, engineering firms, installers, and financiers to develop your expansion or greenfield build from the ground up, to your specifications.

RECRUITMENT PROCESS OUTSOURCING

Delta can support your company's recruiting process and provide other back-office support in a variety of ways.
